Poland has been at the center of many key historical events in the past century – whether as a victim of invasion during World War II or the subsequent imposition of a Communist regime in Warsaw, the liberation from that regime through the Solidarity movement, the home of Pope John Paul II, and other consequential developments.

Dr. Mark Fountain, the Honorary Consul of Poland to North Carolina, has studied the occasions when Poland, in one way or another, has been featured on *TIME*'s cover and accordingly has pulled together a fascinating history that tells the story of many of Poland's different chapters. Please join us for a slide presentation and discussion about Poland's time on *TIME*'s cover. Poland's Ambassador to the United States, Piotr Wilczek, will offer opening comments. This webinar kicks off the 2020-2021 season of the Blanka Rosenstiel Lecture Series on Poland.
