to RSVP

Join us for a lecture exploring the goals and guiding principles of the European green energy transition. We will examine how these objectives shape implementation strategies and the resulting power dynamics, highlighting both the challenges they pose and the opportunities they create for meaningful social transformation.

### GUEST SPEAKER

**Kellan Anfinson, PhD**, is Assistant Professor in the School of Interdisciplinary Global Studies at the University of South Florida. He received his PhD in political science from Johns Hopkins University and has taught and conducted research in the United States, France, Germany and the Netherlands. His work focuses on political theory, critical theory, political economy, environmental politics and climate change, and has been published in journals such as *American Political Science Review*, *Telos* and *New Political Science*.

### MODERATOR

**Markus Thiel, PhD**

Professor, Department of Politics & International Relations  
Director, Miami-Florida Jean Monnet Center of Excellence
